

FRAGILE**FRAGILE****FRAGILE****AUDITORY**

FRAGILE is pleased to present Auditory, an audible memory in retrospective of our previous program. It presents a selection of ten sound pieces, which represent and have been part of the artistic productions showcased in the past two years at **FRAGILE**. The minimalist installation, only relying on the imagination of the audience invites the letter to review and experience the program through various narrative strands from music, poetry and experimental sound.

Participating artists in order of appearance:
